

Video Interview: Hints & Tips

Here are our top tips to help you nail that video interview!

1 Getting Started

You will receive an email from the interview platform or the organisation with the link to complete your video interview.

Read through this thoroughly to ensure you have all the information necessary.

All questions should appear on screen for you to answer

2 Timings

On your video interview email invite, check for any deadlines that you need to complete it by.

Ensure that you give yourself enough time to complete it as there is usually a set amount of time you will have to answer the question.

If this is the case the time will appear on screen!

3 Practice! Practice! Practice!

If you can, do a practice run in front of someone you trust and ask for honest feedback.

There may also be an option to complete a practice video interview, or a test question before completing your video interview.

This is a great way to build your confidence!

4 Check Your Surroundings!

When completing your interview, ensure that you are in a quiet area with minimal distractions. If needed, let the people around you know that you are completing your interview!

Make sure your background is appropriate and you are dressed for an interview to give the best impression.

5 Check Your Tech!

You should get an opportunity to check your sound, camera and microphone before starting - please make use of this!

Ensure you have good internet connection and it may be a good idea to close down any other programmes to avoid any pop ups during the interview!

6 During the Interview!

Good Luck!

- Top Tips:**
- Be yourself! - show your enthusiasm and confidence on the interview.
 - Do your research! - it is important that you know your stuff. Ensure you have researched the company and the role you have applied for.
 - Use the STAR approach - Situation, Task, Action & Result.
 - Don't overthink it and we wish you the **best of luck!**

Thank you and we hope this helps!
